SUMMARY OF EXPERIENCE

Full-stack .NET developer with 6+ years of experience delivering high-performance web applications for finance, retail, and engineering sectors with major highlights including:

- Full stack web developer with good knowledge in web development using .NET technologies
- Good understanding in analysis, design, development, and deployment of web applications
- Proficiency in Versioning Control and expertise in handling complex Relational Databases
- Expertise in Test driven development using React
- Familiar with Continuous Integration/Continuous Deployment (CI/CD) practices

TECHNICAL SKILLS

Skills: .NET, .NET Core, .NET Core Microservices, ASP.NET, ASP.NET Core Web API, ASP.NET MVC, AWS, Azure, Bootstrap, C#, CSS, EF Core, Entity Framework, GitHub, GraphQL, GraphQL API, Highcharts, HTML5, Jest, JEST UNIT TESTING, jQuery, Microservices, Microsoft .NET Test SDK, Moq Framework, React, React Testing Library, ReactJS, Selenium, Splunk, SQL, SQL Server, SSRS, LINQ, AngularJS, SonarQube, SSE.

EXPERIENCE

- **Qburst - Senior software engineer | May 2022 - Present**
- **Xerox - Associate software engineer | March 2022 - May 2022**
- **Apps team technologies - .NET Developer | Nov 2018 - Feb 2022**

EDUCATION

- Master's degree in Computer Application from APJ Abdul Kalam Technical University of Kerala, 2018 | CGPA: 7.15
- Bachelor's degree in Computer Applications Mahatma Gandhi University Kerala, 2016 | CGPA: 7

KEY PROJECTS

GO-Modernization - T and M

July 2024 - Present

GO Apps and Distribution is a retail solution designed for supermarkets. It enables efficient stock management by tracking inventory levels in warehouses, facilitating real-time order placement from stores, and helping planners distribute products effectively across locations.

Technology Used: LINQ, .NET Core, Entity Framework, SQL Server, ASP.NET, AngularJS, SonarQube

Role and Responsibilities:

- Implementing new features in the Distribution module.
- Optimizing and enhancing performance of existing functionalities.
- Modifying and optimizing SQL tables and indexes to increase performance.
- Updating UI components using AngularJS.
- Writing unit tests.
- Conducting code reviews using SonarQube to ensure code quality and consistency.
- Implemented showing real time store quantity using SSE and SQL dependency

Investment and Portfolio management - Intelliflo

Nov 2022 - June 2024

Intelligent Office is a business management solution that helps advisers existing clients, prospect for new ones, ensure actions and recommendations are in line with various financial regulations.

Technology Used: .NET Core, AWS, Entity Framework, GitHub, Microservices, Moq framework, SQL Server

Role and Responsibilities:

- Implemented new features to enhance functionality and user experience.
- Coordinated with microservices owners to design and implement new features or modify existing ones.
- Write unit tests using the Moq framework to ensure robust and reliable code.
- Conducted code reviews to uphold code quality and maintain development standards.

Saviant Consulting

May 2022 - Oct 2024

HBK Advantage is a desktop application used for data acquisition and processing for mechanical, electrical, thermal, and acoustics domains. Helps to record live data from channels and signals later to have them reproducible and available for auditing purposes.

Technology Used: ASP.NET, Azure, GraphQL, JEST UNIT TESTING, Microsoft .NET Test SDK, ReactJS, Selenium

Role and Responsibilities:

- Followed Test driven development using React with the help of Jest and RTL.
- Created and maintained API and UI automation tests, integrated into Azure Pipelines.
- Modified and fixed bugs in GraphQL web APIs consumed by React UI.
- Developed unit test cases and generated mock data to support front-end testing.
